TENNESSEE-TOMBIGBEE WATERWAY

Marine Highway M-65: Paducah and Knoxville to the Port of Mobile, with the Black Warrior to Birmingham. Dashed lines: connections to M-55 at Cairo, Illinois and M-10 in the Gulf.

Site Selector Toolkit

A concise guide to the Tennessee-Tombigbee Waterway and Marine Highway M-65.

The corridor

Corridor maps: rail, interstates, airports, ports, locks

Why water freight

Site selection advantages

Find a site and who to call

One corridor, five river systems, four states.

The Tennessee-Tombigbee Waterway anchors Marine Highway M-65, a corridor of over 1,300 miles connecting five river systems across four states, with direct access to the Port of Mobile.

1,364

Statute miles on M-65

The full federally designated route.

234

Miles of the Tenn-Tom

The ten-lock heart of M-65.

116

Counties in four states

Alabama, Kentucky, Mississippi, Tennessee.

800

Miles closer to the Gulf

For interior shippers.

17

Ports and terminals

On the Tennessee-Tombigbee Waterway.

2010

Designated by MARAD

TTWDA is the route's official sponsor.

TENNESSEE RIVER

The entire river, Paducah, Kentucky to Knoxville, Tennessee

TENNESSEE-TOMBIGBEE WATERWAY

234 miles, ten locks, 341 feet of total lift

BLACK WARRIOR RIVER

Demopolis to the Port of Birmingham

TOMBIGBEE AND MOBILE RIVERS

South to the Port of Mobile and the Gulf

CONNECTIONS

M-10 at Mobile · M-55 at Cairo, Illinois

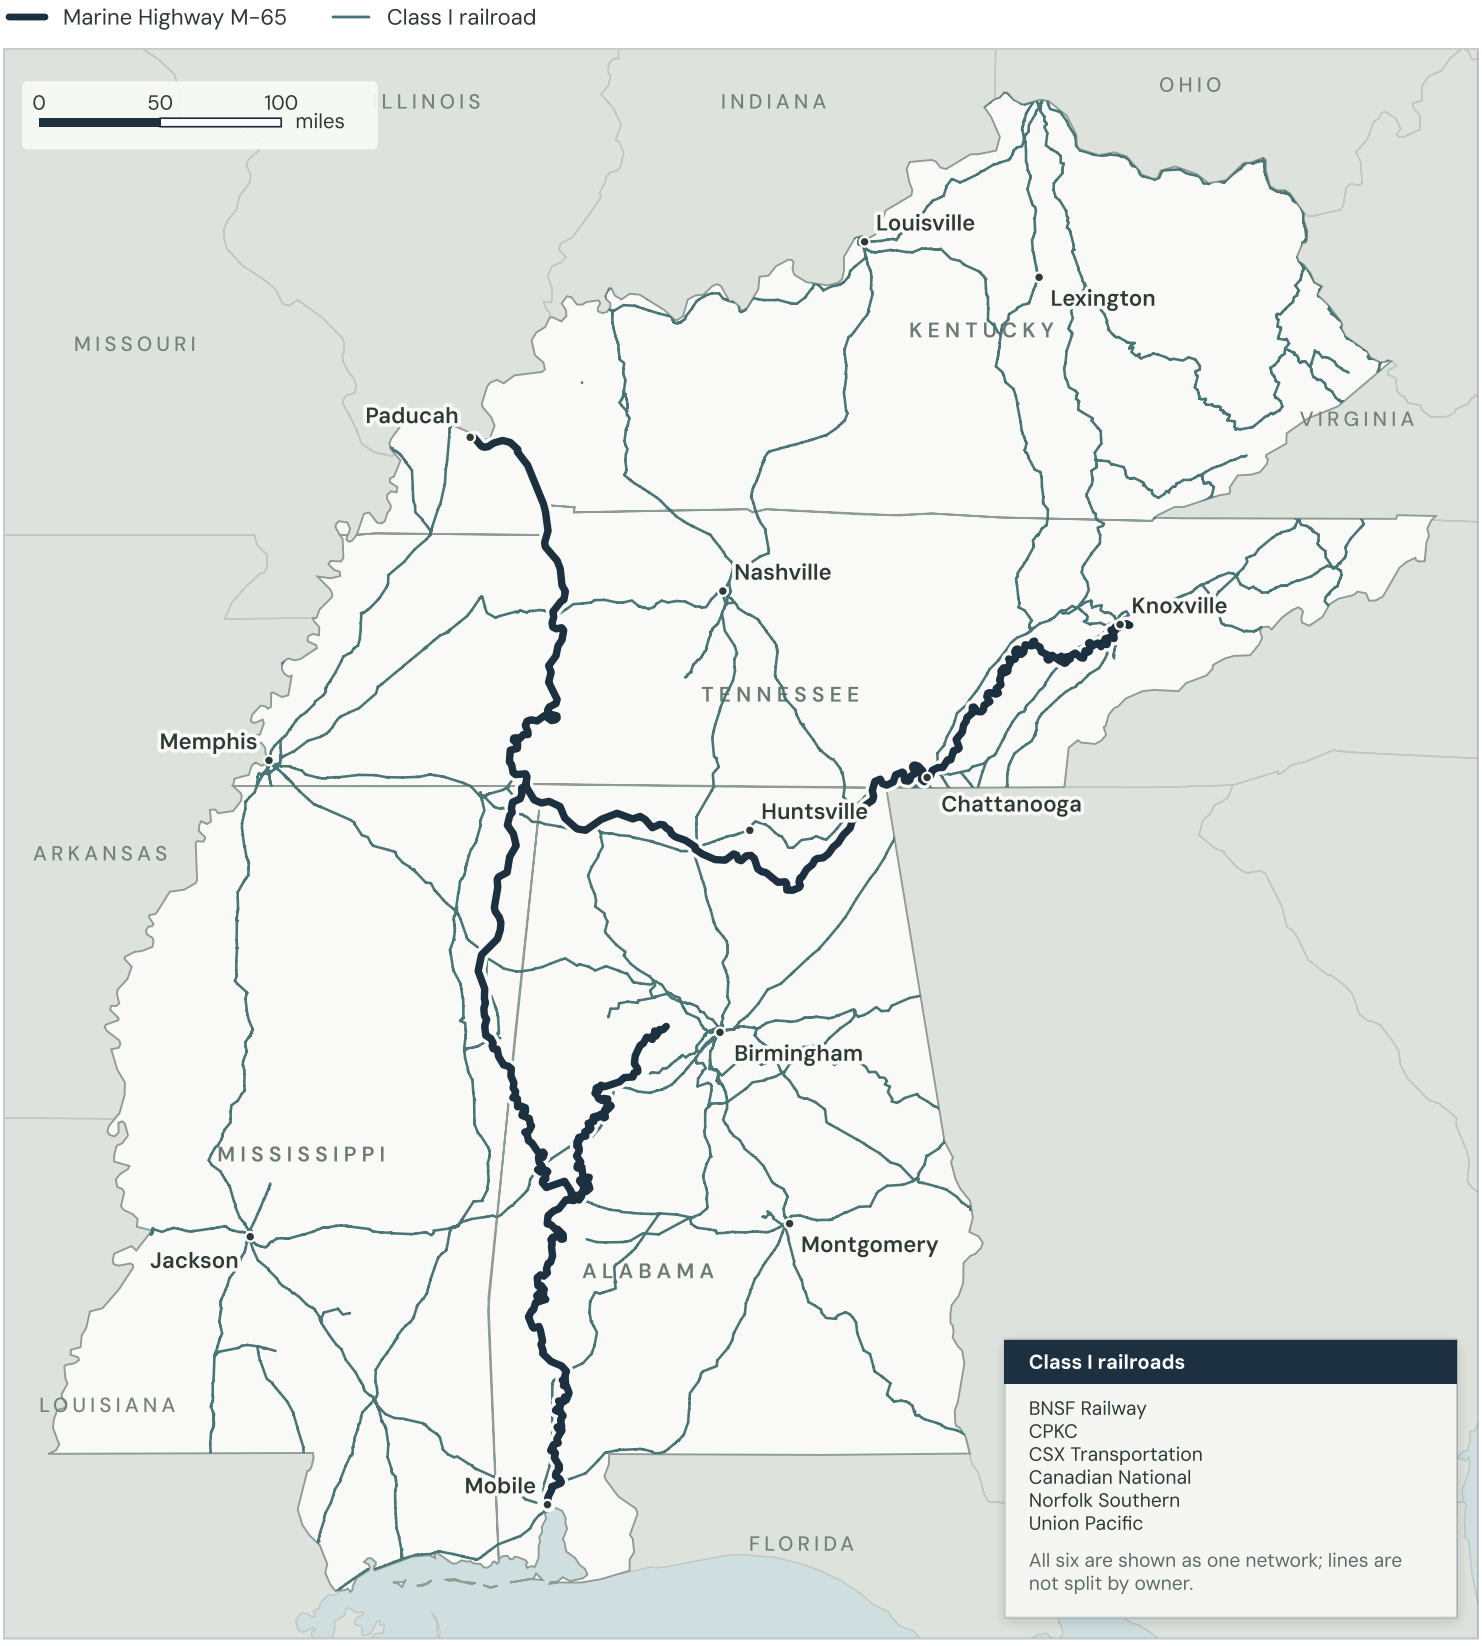
LANDSIDE

Interstate 65 corridor

Route and length: U.S. Maritime Administration, M-65 route sheet (December 2025). Ports and terminals: Tennessee-Tombigbee Waterway only.

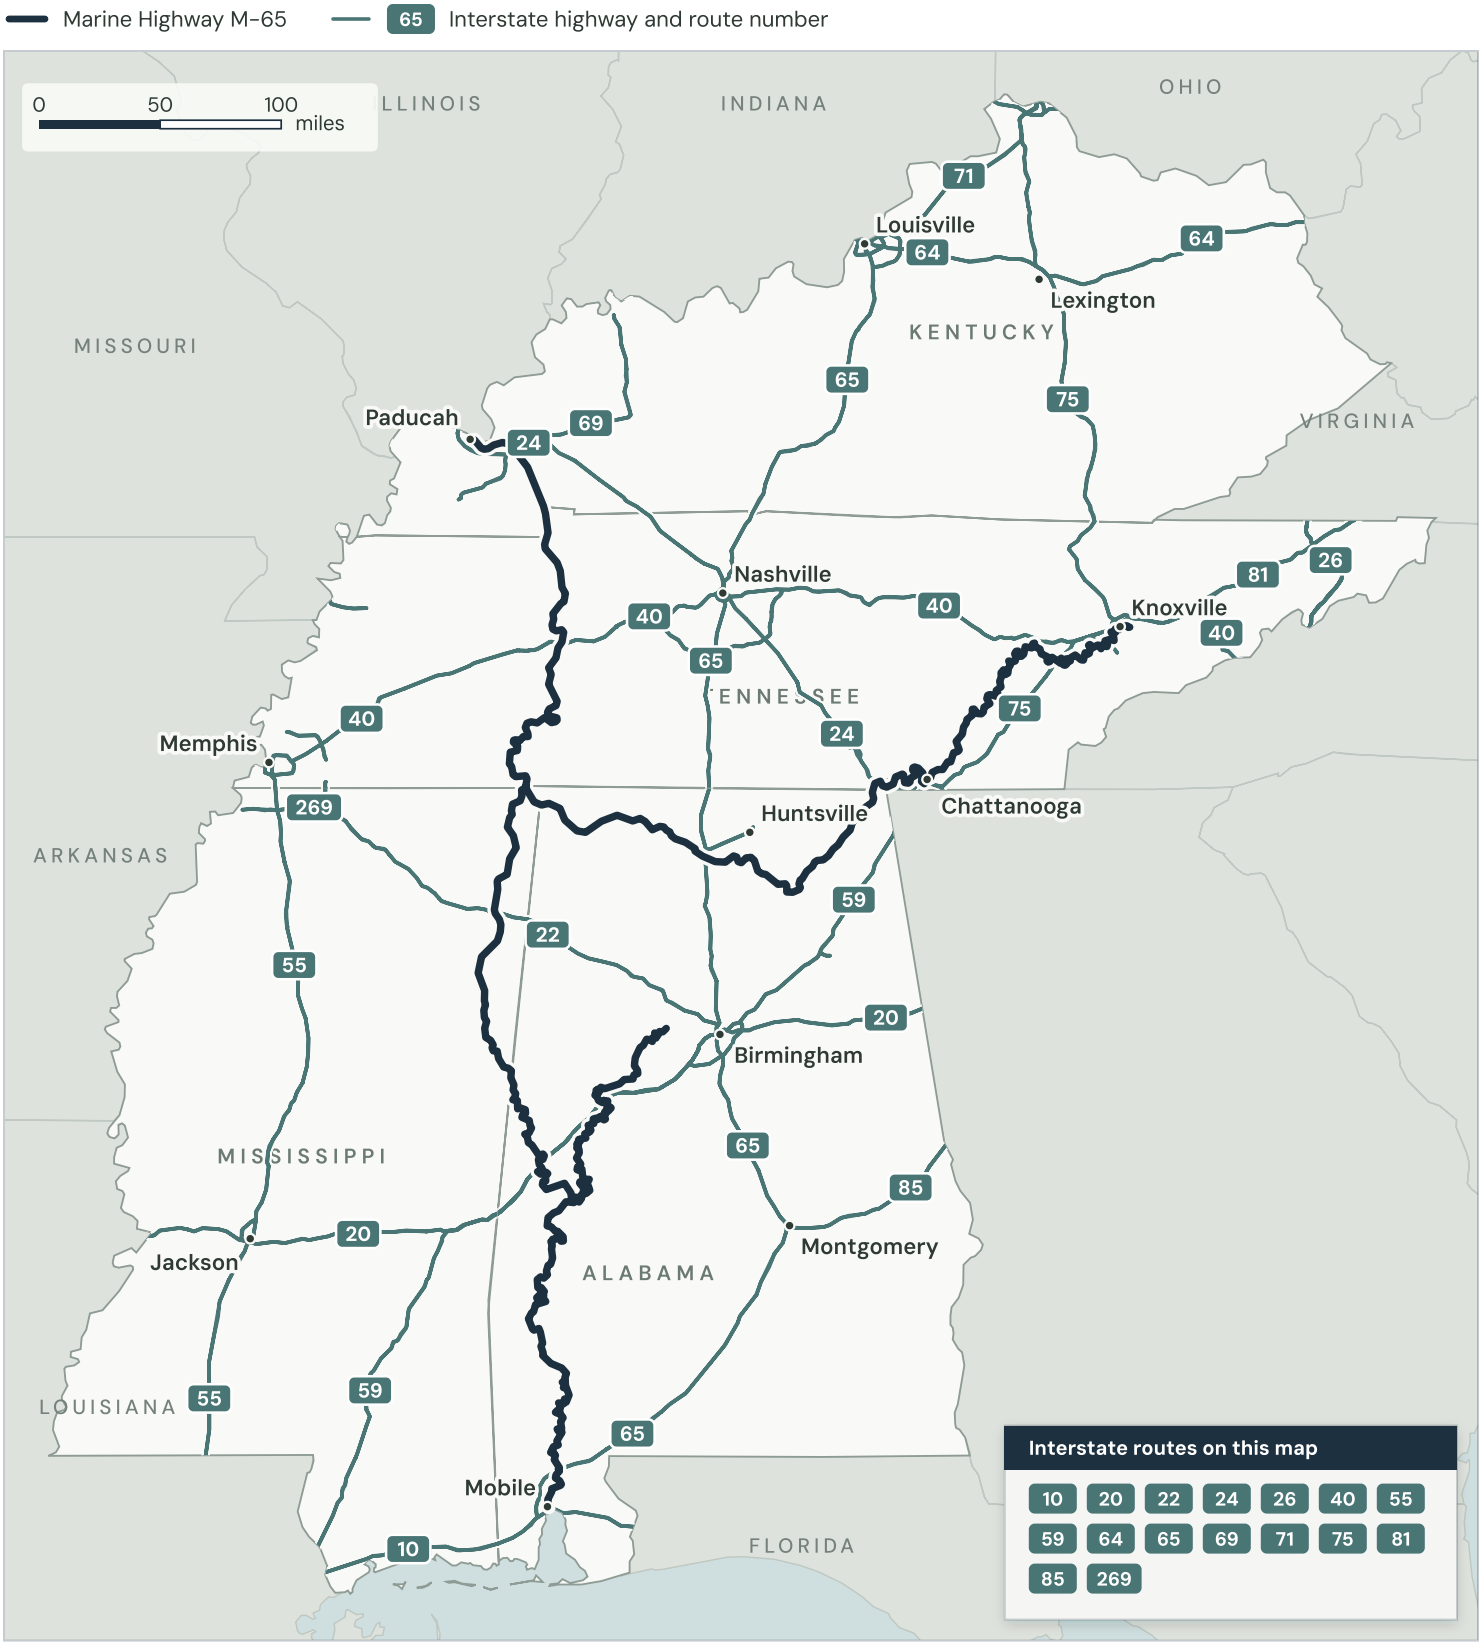
Rail

Class I railroads in Alabama, Kentucky, Mississippi and Tennessee



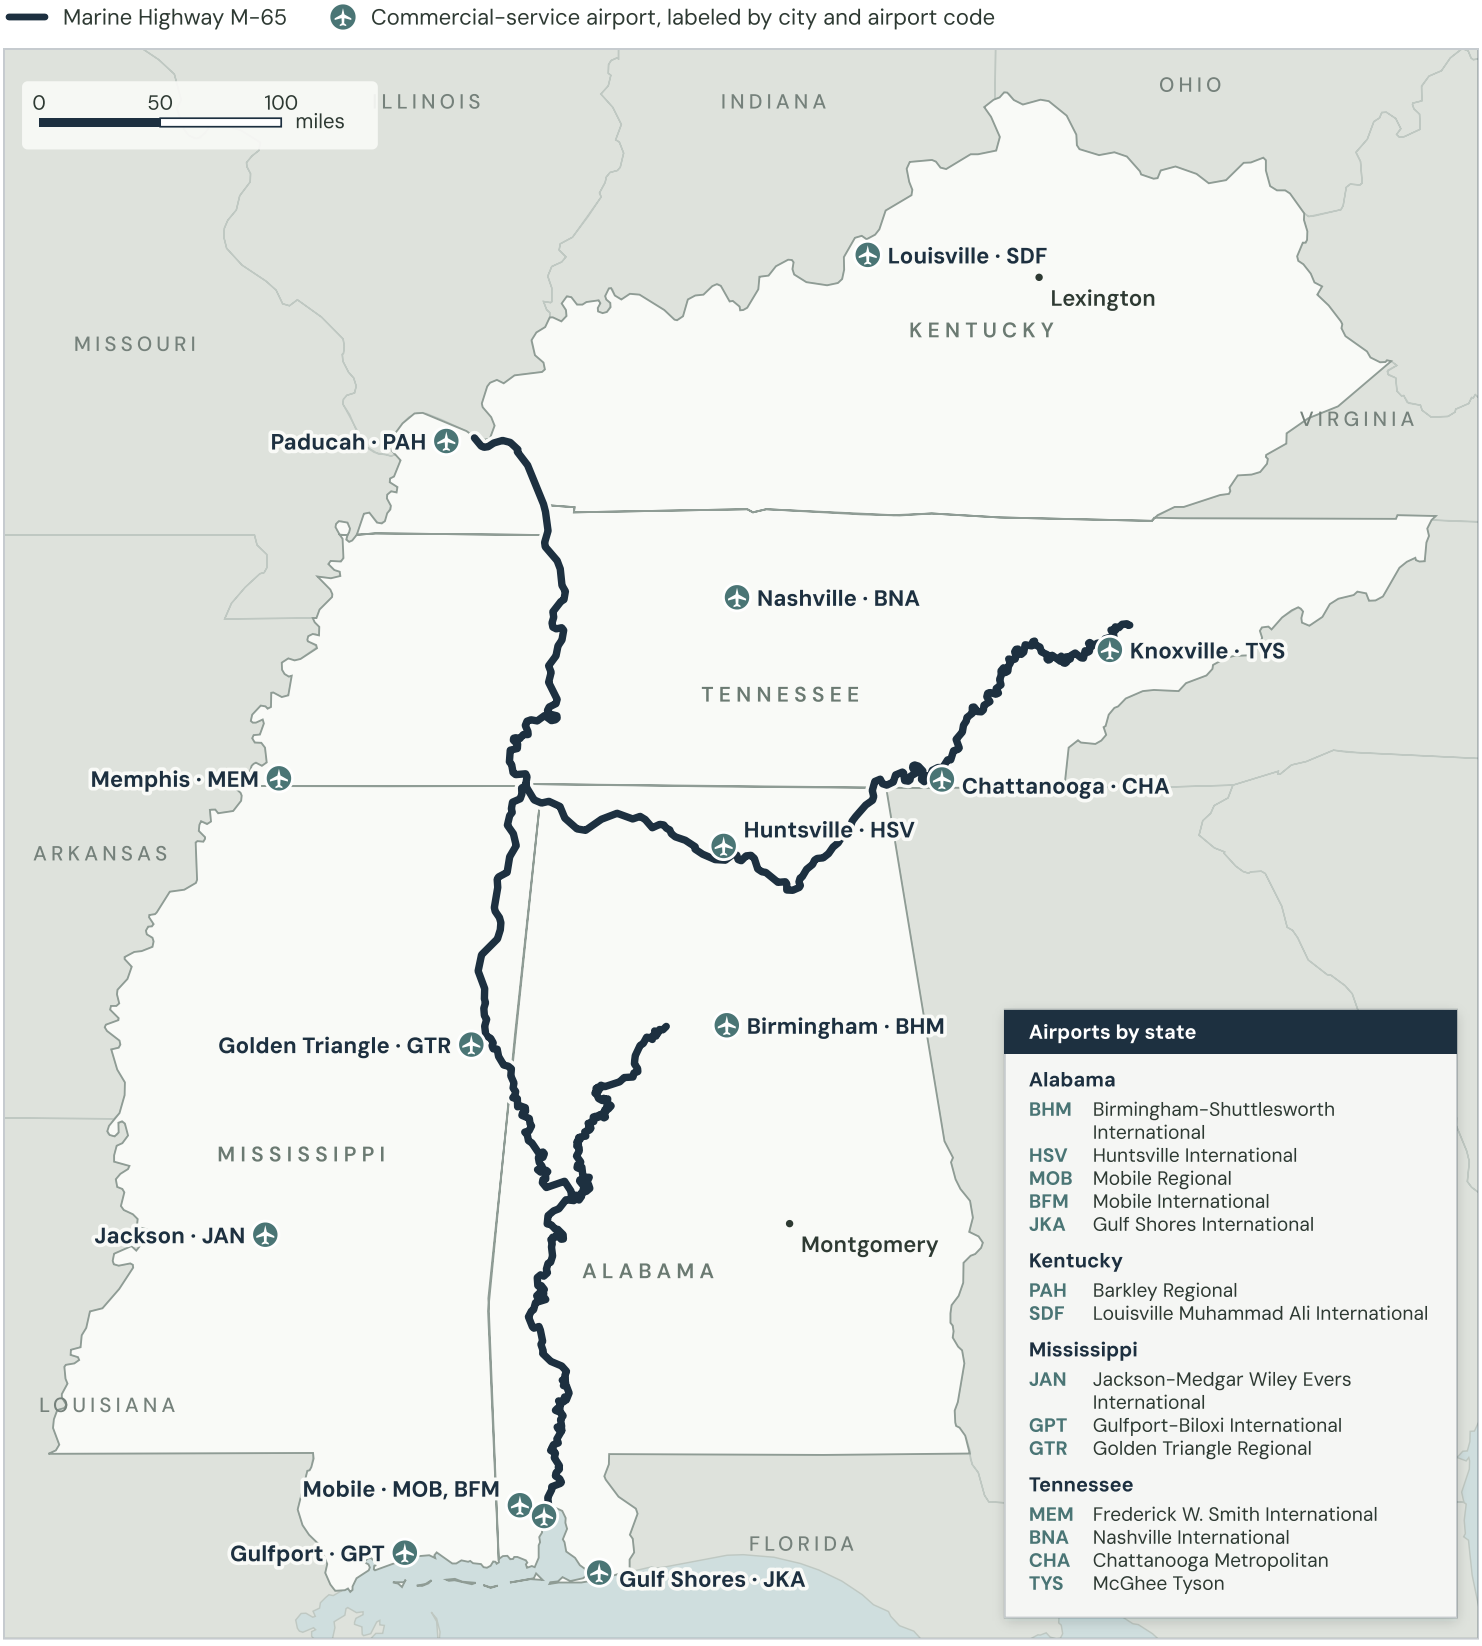
Interstates

Interstate highways in Alabama, Kentucky, Mississippi and Tennessee



Major airports

Fourteen commercial-service airports serving the corridor



Ports and terminals

39 ports and terminals at 33 numbered locations

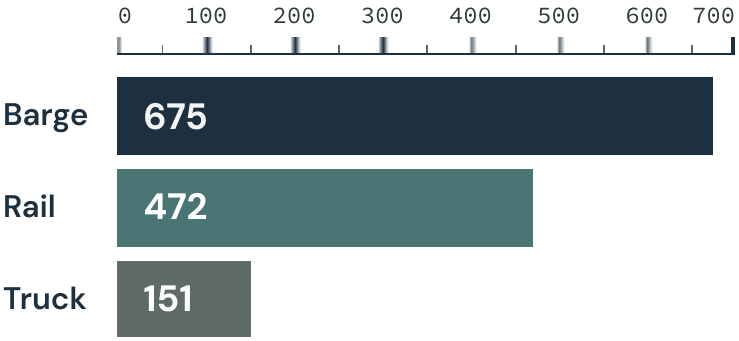
Why water freight.

One 8-barge tow carries what about 560 trucks carry.

Ton-miles per gallon of fuel



More than four times more efficient than highway transport.

30–50%

Lower transportation costs vs. trucking

89%

Fewer CO_2 emissions per ton-mile

1:1,145

Barge-to-truck injury ratio

Site selection advantages.

Multimodal access

Waterway-connected sites with access to rail, highways, and the Gulf.

Economic development connections

TTWDA connects site selectors with local partners for site-specific information.

Quality of place

Boating, fishing, public lands, and communities along the waterway.

Find a site. Start a conversation.

Featured industrial sites with water, rail, and highway access are on the interactive map. TTWDA makes the local introductions.

Interactive map

Industrial sites, ports, rail, and highways across the corridor.
